

## Message from the Director:

2018 was another exciting year for the Bruce County Public Library as we continue in our mission to be a vibrant community hub. As a County library system, our successes are due to many individuals - from our elected municipal leaders, our dedicated Library Board, our passionate staff, and our devoted Friends of the Library/volunteers. We thank you all for your efforts and your belief that libraries can change people's lives. But most of all we want to thank YOU - the public - for your support. We are excited to continue offering you the library services that you deserve in 2019 and beyond!

-Nicole Charles
